

Answer the questions in the spaces provided. If you run out of room for an answer, continue on the back of the page.

Student's Name: \_\_\_\_\_

Instructor's name: \_\_\_\_\_

Do the following series converge or diverge?

1.

$$\sum_{n=0}^{\infty} \frac{(2n)!}{5n+1}$$

$$\begin{aligned} L &= \lim_{n \rightarrow \infty} \left| \frac{a_{n+1}}{a_n} \right| = \lim_{n \rightarrow \infty} \left| a_{n+1} \frac{1}{a_n} \right| = \lim_{n \rightarrow \infty} \left| \frac{(2(n+1))!}{5(n+1)+1} \frac{5n+1}{(2n)!} \right| \\ &= \lim_{n \rightarrow \infty} \left| \frac{(2n+2)!}{5n+6} \frac{5n+1}{(2n)!} \right| = \lim_{n \rightarrow \infty} \left| \frac{(2n+2)(2n+1)(2n)!}{5n+6} \frac{5n+1}{(2n)!} \right| \\ &= \lim_{n \rightarrow \infty} \left| \frac{(2n+2)(2n+1)(5n+1)}{5n+6} \right| = \infty \end{aligned}$$

We can see that  $L = \infty > 1$  thus by the Ratio Test the series diverges.
